

Churchyard of St Mary the Virgin, Elham Monumental Inscriptions Index of Surnames

Every gravestone in the churchyard has been given a number, to which this index refers. A second number relates to the part of the churchyard where it stands (East, North-East, North-West, West, South-West, and South-East). These numbers can be seen on the plans of each section.

This survey was undertaken by six teams of volunteers, and their work has since been moderated by our Chairman. It is still hoped to decipher the inscriptions on some of the stones currently listed as illegible. There may well be errors and omissions; if you spot any please let us know in person or at elhamhistorical@gmail.com.

We have also included the four graves at Elham Methodist Church. They are at the end of this volume.

Much more information about Elham's past inhabitants is available on the Society's database at www.ehsdatabase.elham.co.uk.
